REPORT OF AUDITOR

January 28, 1952

Board of Selectmen
Town of Harpswell
Harpswell, Maine

Gentlemen:

In accordance with your request, we have audited the records of the Town of Harpswell, for the municipal year ended December 31, 1951.

This examination was made in accordance with generally accepted auditing standards, and included all procedures which we considered necessary. Insofar as could be determined, within the scope of the examination, the financial affairs of the town appear to have been administered in a proper manner.

The results of the audit are disclosed in the exhibits and schedules embodied in this report, and fairly present the financial position of the Town of Harpswell, and the results of its operations for the municipal year ended December 31, 1951.

Respectfully submitted,

L. Everett Outhouse.

REPORT OF HEALTH OFFICER

I herewith submit the report for the year from January 1, 1951 to January 1, 1952.

This year clinics were held at Orr's Island, Cundy's Harbor and West Harpswell. At these clinics one hundred and one children were immunized against dyphtheria, whooping cough and tetanus. Also fifty-one children were vaccinated against smallpox.

Number of contagious diseases reported as follows:

Measles	108
Whooping Cough	19
Scarlet Fever	5
German Measles	3
Chicken Pox	2
Mumps	2
Complaints and Nuisances	6
Total	145

Respectfully submitted,

JOHN E. SYLVESTER,

Health Officer of Harpswell.

ANNUAL REPORT OF THE PUBLIC HEALTH NURSE

1951 — HARPSWELL

At the last town meeting \$200.00 was appropriated for Public Health Nursing. To insure a well rounded program the nurse should have the support of the entire community. In January a Health Council was organized. Before it was voted to have a Council several organization meetings were held. These meetings were well attended. Twenty-four organizations were represented and all were for organizing the Health Council. After the Council was organized and officers elected and regular meetings started, the attendance dropped to five to eight members. This may be due to lack of interpretation of a Health Council. The purpose of a Health Council is to promote and improve the health of the community. A Health Council can determine health needs by learning what facilities are available in the community for care of the sick, preventive health services, such as Child Health Con-

ferences, immunization programs, school health services, sanitation and by learning about facilities for the care and correction of defects. A Health Council can help meet the health needs of the community by supporting the local Health Officer; by coordinating existing health services, by interpreting their needs to the local organizations they represent, by providing volunteer assistance for planned health activities, by interpretation of its functions to the rest of the community, and by planning educational programs in health for themselves and for the rest of the community. With these factors in mind, let's hope that the Council meetings will be better attended and more interest shown this coming year.

Four Child Health Conferences were held this past summer. The original plan was for three Conferences at Harpswell Neck and three at Orr's Island. Only two Conferences were held at each place. The third Conference at Harpswell Neck was cancelled because of lack of interest.

During the year the Public Health Nurse has made home visits to expectant mothers, infants and preschool children to assist the families to develop good health habits and to secure medical care when needed.

The cardiac and crippled children's program are important functions of the Public Health Nurse. This program consists of early case finding, helping families secure competent medical care so that these children may grow up to be normal and healthy adults and take an active part in the community.

I wish to express my appreciation to all individuals who have assisted with the program. It is to be hoped that the health work will be increased during the coming year.

Respectfully submitted,

THERESA M. McNEIL, R.N.

State Bureau of Health.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Harpswell:

It is with pleasure that I submit this my first annual report as Superintendent of Schools for the Town of Harpswell. All necessary financial and statistical data follows the verbal portion of this report.

During the past year the same general program as last year has been continued. Three rooms, each housing three grades, have been maintained in each of the three sections of town. It is my wish to briefly summarize the general school conditions in each of these three areas.

At West Harpswell conditions seem quite adequate at the present time. All pupils are housed in the one central building which is composed of three rooms, each of which enrolls three grades. Quite extensive interior painting has been done during the past year. This building is being operated at near capacity enrollment at present and any substantial increase will require additional space. The primary and grammar rooms are in charge of the same efficient teachers as last year, namely, Mrs. Goldie Morse and Mrs. Grace Knight. Mrs. Ruth Peabody was secured to fill the vacancy in the intermediate room and is rendering very commendable service in that capacity.

At Orr's Island the intermediate and grammar grades of the Orr's Island and Bailey Island area have been housed. Physical conditions at this school are definitely sub-standard, heating, furnishings, toilet facilities, water supply, and playground all being inadequate. There is at present an overcrowded condition in the intermediate room which may become more serious next year. In that event it seems highly probable that the upstairs room at Bailey Island will have to be reopened. The town was fortunate in securing the services of Mr. and Mrs. Sumner Whitney as teachers for this school.

The Bailey Island school under the able instruction of Mrs. Vara Leeman is the primary school for this section. This school is overcrowded and has many of the same general physical inefficiencies as apply to the Orr's Island school.

The primary and intermediate grades of the Great Island area located at Cundy's Harbor are being taught by the same teachers as last year, who are doing very commendable work with inadequate facilities. The primary room is greatly over-

crowded. Likewise inadequacies in heating, toilet facilities, water supply, and playground exist.

The grammar grades are housed in the Cranberry Horn school under the instruction of Mrs. Mary Ganske, who is doing excellent work. Similar physical conditions exist here as in the other schools of the area.

Despite the fact that sizeable sums are spent annually for repairs in the Orr's and Bailey and Great Island areas, it is not possible to materially improve the general physical aspects of these schools. The town should seriously consider immediate steps to improve school housing conditions in these areas.

It is quite probable that in the near future school enrollment will increase substantially due to the proximity to the Brunswick air base.

I have been informed by Brunswick school officials that in all probability the terms of the contract for high school tuition entered into by Harpswell and Brunswick as an outgrowth of the so called "Enabling Act" will be in effect by next September. This will necessitate a substantial increase in that appropriation this year.

Your committee has carefully prepared the proposed budget for 1952. The total appropriation asked for is somewhat higher than last year mainly because of the increase in high school tuition, and the probable necessity of opening another room at Bailey Island.

I wish to thank the teachers, the school committee, town officials, members of the Parent Teacher Associations, parents, and townspeople in general for their much appreciated interest and cooperation in the dispatch of school problems. When such interest is manifest any school system must improve.

Respectfully submitted,

HAMILTON B. GRANT
Superintendent of Schools.

PROPOSED SCHOOL BUDGET FOR 1952

TOWN OF HARPSWELL

Expended—1951

Estimated—1952
